- 25X1 1. [REDACTED] Comment. The officers are known in these positions. [REDACTED]
- 25X1 2. [REDACTED] Comment. A comparison of incoming and outgoing shipments, according to which 278 carloads arrived in November and 345 carloads in December against 145 carloads dispatched in November and 340 carloads dispatched in December, indicates that the November rate of outgoing shipments was far below the average rate, while the December rate of outgoing shipments and November and December rate of incoming shipments are considered to have been normal. Traffic relations are known. Large supply depots are located at the receiving stations.
